for Blender

FOR IMMEDIATE RELEASE

Sendai, Japan - April 18, 2023 - P SOFTHOUSE released today "PSOFT Pencil+ 4 Render App" along with the free Blender add-on "PSOFT Pencil+ 4 Line for Blender" which perform high-speed drawing of high-quality lines with a hand-drawn look on 3D objects.

These products were developed with the cooperation of khara, Inc., creators of the theatrical animation film "Evangelion: 3.0+1.0 Thrice Upon a Time", for use as add-on for the free open source 3D computer graphics software "Blender" which is available to everyone.

Equipped with the "PSOFT Pencil+ 4" drawing engine which has attained recognition in the animation production industry, these products can be used by anyone to create theatrical quality productions with Blender. Recently, examples of using Blender are increasing in the Japanese animation industry, leading to a heightened interest in utilizing it. Since the development of Pencil+ 4 for Blender was announced in January of this year, the add-on has attracted a lot of attention, and there is hope that its release will lead to the creation of new workflows and provide new opportunities for the next generation of creators to enter the industry.
